

Parkinson's Seminar for General Practitioners & Health Professionals

Treatments and medication management of Parkinson's disease - including the use of Duodopa and Deep Brain Stimulation (DBS)

6.30pm Monday 7 August 2023

Limone Dining 482 Banna Ave, Griffith NSW

Parkinson's NSW is delighted to be supported by AbbVie Pty Ltd and Medtronic Australasia Pty Ltd to bring you a GP & Health Professional seminar on Parkinson's Disease Medication Management and Treatments.

This information seminar will provide General Practitioners and other Health Professionals with information about the management of advanced Parkinson's medication, Duodopa and Deep Brain Stimulation in the treatment of Parkinson's disease.

Guest Speakers

Dr Samuel Bolitho
Neurologist

Dr Samuel Bolitho is a neurologist specialising in movement disorders. He utilises a range of therapies including deep brain stimulation, device-assisted therapies, MRI-guided focussed ultrasound, and botulinum toxin.

Kate Warren
Movement Disorder Clinical Nurse

Working with people with Movement Disorders across the MLHD – role is to enhance the quality of life and self-management of individuals living in the MLHD.
