

## What's new in COPD Management?

### Management of COPD in General Practice & Practical Inhaler Device Training

This workshop for GPs and Practice Nurses focuses on up-to-date evidence and treatment options for supporting and treating patients with COPD.

Participants will have the opportunity to discuss current approaches and best practice treatment. There will be an emphasis on practical advice and hands on learning.

#### Learning Outcomes:

- Identify people with COPD and confirm diagnosis
- Explain effective non-pharmacotherapy and pharmacotherapy interventions for the management of COPD
- Utilise evidence-based tools to assess and manage patients with COPD
- Review correct inhaler technique
- Identify common errors in using respiratory inhaler devices

**All participants will receive a box of placebo inhaler devices to use when teaching patients, plus hard copy COPD resources.**

#### Presenters

**Dr. Andrew Stone**, Respiratory and Sleep Consultant, Riverina Respiratory & Sleep Centre

**Robyn Paton**, clinical nurse consultant, asthma & respiratory

**MENARINI**

**Kindly supported and sponsored by**
